Review Report

Thank you for giving me the opportunity to review this interesting study. Here are some comments and recommendations:

Abstract:

- Include key data.

Introduction:

- Emphasize the gap of knowledge.

Methods:

- Adequately describe inclusion and exclusion criteria.
- Mention appropriate details of techniques.

Results:

- The text should complement the tables and figures.
- Clarify the effect size for the main outcome.

Discussion:

- Focus on highly relevant studies.
- Mention the limitations of the study.

References:

- Update few references

I have read this submission. I believe that I have an appropriate level of expertise to confirm that it is of an acceptable scientific standard, however I have significant reservations, as outlined above.
